

# Custody Protect

Custody Protect monitors the health and safety of people in police custody

We use sensors and artificial intelligence  
to monitor vitals and activity,  
watching for any sign of danger

Works Everywhere:  
Arrest  
Transport  
Detention Cell

# Monitor Custodies During Arrest

Velcro for Cooperative Custodies

Zip Ties for the Less Cooperative

# Monitor Custodies in Cells

Our sensors capture

Heart Rate

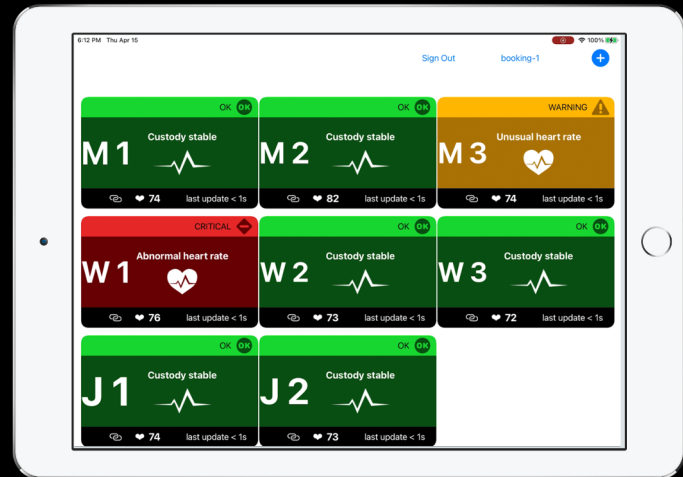

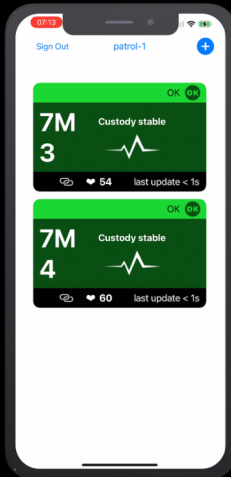

Motion

Location

We Detect  
Excited Delirium  
Positional Asphyxia  
Overdoses  
Suicide Attempts  
Falls

When we detect any sign of danger,  
we alert officers instantly

# Custody Protect alerts officers through apps for smartphones, smart watches, and our dispatch dashboard

# We Protect Custody Data

End-to-End Encryption

Access Control

Authentication & Authorization

Control Data Retention Policy

**Custody Protect** is sold through an annual subscription that includes hardware, software, cloud services, training and support

“Custody Protect is intuitive and simple to use; it monitors and assesses the health and safety of persons in custody in real-time. This tool will be the new standard for Corrections and Law Enforcement professionals to continuously assess arrestees' and inmates' critical safety needs. Custody Protect is a game-changer.”

Shawn Laughlin, Commander  
Broomfield Colorado Police Department
