## **Damon Lane, Chief Meteorologist KOCO News 5**

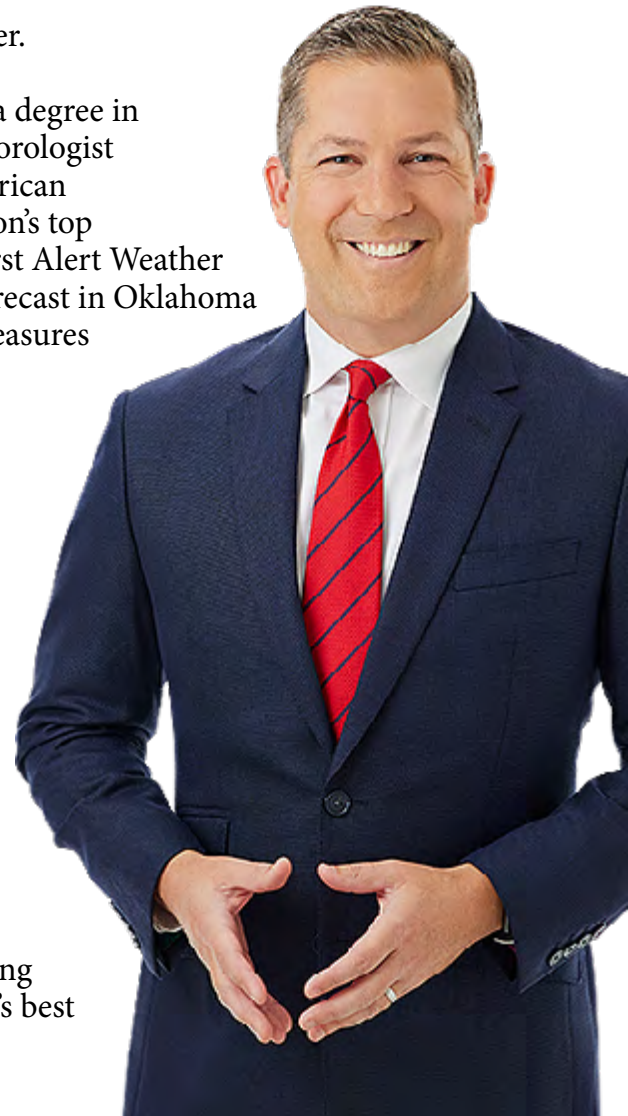

Damon Lane is Chief Meteorologist for KOCO 5 First Alert Weather.

Lane is the only Chief Meteorologist in Oklahoma City who holds a degree in Atmospheric Sciences/Meteorology. He is also the only Chief Meteorologist in Oklahoma City to hold the CBM seal of approval from The American Meteorological Society, the highest level certification from the nation's top association for broadcast meteorologists. Lane and the KOCO 5 First Alert Weather team are independently certified as delivering the most accurate forecast in Oklahoma City by WeatheRate, an independent scientific organization that measures accuracy in weather forecasts across the country.

Lane was born and raised in Northern Virginia and was drawn to science and weather from a young age. Lane earned two bachelor degrees in college. After graduating in less than four years in Communications/Mass Media from Old Dominion University, Lane earned his Bachelor of Science in Atmospheric Sciences/Meteorology from The University of North Carolina, Asheville.

While he takes his weather science seriously, during his free time Lane is just as serious about having fun out in the elements. An avid outdoorsman, he loves to hike in summer and snow ski in winter. He shares his love of the outdoors and traveling with his wife Melissa. Being new parents hasn't slowed them down and they love to share their travel adventures with their daughter.

When he's not exploring the outdoors with his family, he enjoys firing up the barbeque at home and is convinced that he makes the world's best "jalapeno poppers."
